Online Content Highlights

PLATO Content
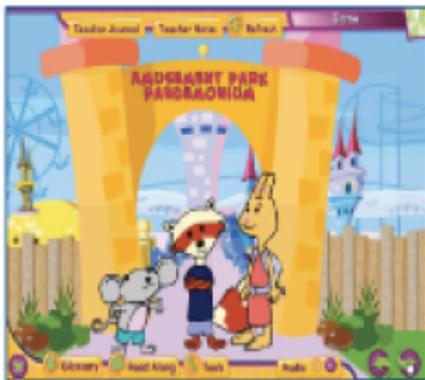

Straight Curve Math is a K-6 online program that focuses instruction on the concepts found to be most challenging for K-6 students.

Education City is an award-winning web-based, instructional intervention tool provides fun and engaging student activities and teaching resources correlated to state and Common Core standards in pre-K through 6th grade language arts, math, science, and ESL. Our interactive educational activities capture the attention of young learners with bright colors, catchy music and a lovable cast of characters - inspiring a lifelong love of learning.

Reading Eggs makes learning to read interesting and engaging for kids, with great online reading games and activities. The lessons found in Reading Eggs are designed to tie into the five pillars of reading instruction: phonemic awareness, phonics, fluency, vocabulary, and comprehension.

Reading Eggspress makes reading real books, improving spelling skills and building reading comprehension highly engaging for 7 – 13 year olds.

The site is packed full of hundreds of great online activities, books, and games.

Web Resources

Many online resources are used to help support the success of all students.

LearnZillion puts the learner in charge with high quality lessons all aligned with the Common Core State Standards.

Learning A-Z easy-to-use and downloadable reading, writing, science and vocabulary resources.
RAZ Kids delivers hundreds of interactive, leveled eBooks and eQuizzes spanning 27 levels of difficulty, covering a wide range of subjects.

LiveBinders allows teachers and students to organize digital content and provides new opportunities for collaborating, and sharing.

Gmail is a free, advertising-supported email service provided by Google. Users may access Gmail as secure webmail.
Google Hangouts bring conversations to life with photos, emoji, and even group video calls for free. Connect with classmates and the teacher across computers, Android and Apple devices.

Edmodo is an educational website that takes the ideas of a social network and filters them and makes it appropriate for the educational setting. Using Edmodo, students and teachers can reach out to one another and connect by sharing ideas, problems, and helpful tips.

Common Core

Arizona College & Career Ready Standards are aligned and addressed in each academic area.
